1. Introduction

The AZ CSPMP Delegate Registration and Request Guide serves as a step-by-step guide for delegate registration, approval, and patient lookup features.

2. Overview

AZ CSPMP is a Web-based system that collects, analysis and reporting of controlled substances dispensing and use of prescription drugs. The system allows a physician's or pharmacist's authorized delegate to access patient reports on behalf of their CSPMP registered supervisor. Delegates must have their own account which are linked to their supervisor's account. Under no circumstances should a delegate use their supervisor's account or another delegate's account. Accounts should only be accessed and used by the registered account holder.

Delegate accounts can have any number of linked supervisor accounts. When running a patient request please make sure to select the appropriate supervisor.

3. Delegate Registration

To register for a Delegate Account, go to www.AZRxReporting.com, and click on "Register" on the left below the state seal.
